3. Have a criminal record pursuant to *N.J.A.C. 8:17-15.2*.

(c) Paragraphs (b)1 or 2 above do not disqualify a person by virtue of the person's receipt of compensation for service as a surrogate parent.

(d) The Department or its designee shall pay a surrogate parent for his or her hours of service in that capacity.

§ 8:17-5.3 Responsibilities of surrogate parent

(a) Once assigned, a surrogate parent is authorized and required to represent a child in all matters related to:

1. The consent to referral to the early intervention system;

2. The evaluation and assessment of the child;

3. The development and implementation of the child's IFSPs, including annual evaluations and periodic reviews;

4. The ongoing provision of early intervention services to the child; and

5. Any other rights established under Part C and this chapter establish.

§ 8:17-5.4 Criteria for terminating appointment of a surrogate parent

(a) The Department shall terminate the appointment of a surrogate parent if:

1. The child ceases to meet the eligibility criteria identified in *N.J.A.C. 8:17-5.1* for needing a surrogate parent;

2. The child ceases to participate in the early intervention system; or

3. The surrogate parent ceases to meet the eligibility criteria identified in *N.J.A.C. 8:17-5.2* or the surrogate parent requirements in *N.J.A.C. 8:17-5.3*.

(b) The Department shall not terminate a surrogate parent in retaliation for the surrogate parent exercising his or her rights or the rights of the child pursuant to *N.J.A.C. 8:17-5.3*.

SUBCHAPTER 6. EVALUATION AND ASSESSMENT

§ 8:17-6.1 Initial and ongoing evaluation and assessment

(a) The evaluation and assessment of a potentially eligible child shall be conducted by a qualified practitioner and shall be based on informed clinical opinion.

(b) As part of the process to measure a child's eligibility, the practitioner shall use an evaluation and assessment instrument, such as the BDI, the use of which instrument the Department recommends.

(c) The evaluation and assessment process consists of:

1. A review of pertinent records related to the child's current health status and medical history;

2. An evaluation of the child's level of functioning in each of the following developmental areas:

- i. Physical, including gross motor, fine motor, vision and hearing;
- ii. Cognitive development;
- iii. Communication development;
- iv. Social and emotional development; and
- v. Adaptive development; and

3. The identification of appropriate services to meet the child's needs in the developmental areas identified in (c)2 above, through the IFSP process.

§ 8:17-6.2 Family-directed assessment

(a) Family assessments shall be: conducted with family consent; family-directed; and designed to determine the resources, priorities, and concerns of the family and the identification of the supports and services necessary to enhance the family's capacity to meet the developmental needs of the child.

(b) Family participation in an assessment is voluntary and a family or individual member's refusal to participate therein shall not affect a child's eligibility for early intervention services.

(c) If a family assessment is conducted, it shall:

1. Be conducted by a qualified practitioner;
2. Be based on information provided by the family through personal interview; and
3. Incorporate the family's description of its resources, priorities, and concerns related to enhancing the child's development.

§ 8:17-6.3 Timelines

(a) The initial evaluation and assessment of each child pursuant to *N.J.A.C. 8:17-6.1*, and the family-directed assessment pursuant to *N.J.A.C. 8:17-6.2*, shall be conducted to enable the initial IFSP meeting to take place within 45 days of referral, pursuant to *N.J.A.C. 8:17-8.3*.

(b) In the event of exceptional circumstances that make it impossible to complete the evaluation and assessment of the child within 45 days of the referral (for example, if a child were ill, a family emergency which prevents participation, or declared weather emergency limiting transportation to the family's home), the service coordinator shall:

1. Document those circumstances; and

2. Develop and implement an interim IFSP, to the extent appropriate and consistent with *N.J.A.C. 8:17-8.2*.

(c) Exceptional circumstances, as used in (b) above, shall relate only to the child and family and shall not relate to the administrative convenience of the service coordinator or the provider agency.

§ 8:17-6.4 Nondiscriminatory procedures

(a) Each practitioner conducting evaluations and assessments shall ensure nondiscrimination in the evaluation and assessment of children and their families and shall:

1. Administer tests and other evaluation materials and procedures in the primary language of the parents or by means of another mode of communication, unless it is clearly not feasible to do so, such as, for example, if using that language or other mode of communication would be so prohibitively costly as to make it unreasonable for the NJEIS to communicate with the family in that fashion;

2. Employ evaluation and assessment procedures and use materials that are not racially or culturally discriminatory; and

3. Not use any one single procedure as the sole criterion for determining a child's eligibility under *N.J.A.C. 8:17-7.1*.

SUBCHAPTER 7. ELIGIBILITY CRITERIA AND PROCEDURES

§ 8:17-7.1 Eligibility criteria and procedures

(a) A child is eligible to receive early intervention services from the Department if the child has a diagnosed condition described in (c) below or if:

1. The child is experiencing developmental delays, as measured using an evaluation and assessment instrument, such as the BDI, and applying procedures (including informed clinical opinion) as described in *N.J.A.C. 8:17-6.1(b)*, in one or more of the following developmental areas:

- i. Physical, including gross motor, fine motor, vision and hearing;
- ii. Cognitive;
- iii. Expressive and receptive communication;
- iv. Social or emotional; or
- v. Adaptive.

(b) In using standardized evaluations or criterion-referenced measures to determine eligibility, a developmental delay is, at a minimum, a delay of either 33 percent in one developmental area or 25 percent in two or more developmental areas, or, if appropriate standardized instruments are individually administered in the evaluation process, a score of at least 2.0 standard deviations below the mean in one functional area or a score of at least 1.5 standard deviations below the mean in each of two functional areas.

1. The evaluator or assessor shall calculate percentages based on corrected age for children born at or before 38 weeks of gestation, calculating the correction based on 40 weeks.

2. The child's corrected age shall apply until the child reaches 24 months of age.

3. For children born at or after 38 weeks of gestation, or who are evaluated at an age beyond 24 months old, there shall be no correction in age.

(c) A child is eligible for early intervention services if he or she has a diagnosed physical or mental condition in one or more of the categories that have a high probability of resulting in developmental delay, listed in (d) below.

1. This includes children who have identified conditions but who may not be exhibiting delays in development at the time of diagnosis.

(d) The categories of physical and mental conditions that have a high probability of resulting in developmental delay are:

1. Chromosomal abnormalities, or genetic or congenital disorders;
2. Severe sensory impairments, including those relating to vision and hearing;
3. Untreated inborn errors of metabolism;
4. Disorders reflecting disturbance of the development of the nervous system;
5. Congenital infections;
6. Disorders secondary to exposure to toxic substances, including fetal alcohol syndrome;
7. Severe attachment disorders; and
8. Autism spectrum disorders.

(e) A multidisciplinary team of practitioners shall determine eligibility within a diagnosed physical or mental condition category based on a statement or report signed by a physician, advanced practice nurse or licensed clinical psychologist, as appropriate to the

suspected disability, indicating the condition that is likely to result in developmental delay.

1. The multidisciplinary team shall consider the report or statement required under (e) above with respect to the types and amounts of services that a child and/or his or her family should receive through the early intervention system but the team shall not use the report or statement as the sole basis by which it makes the developmental diagnosis or determines the services approved through the IFSP process described at *N.J.A.C. 8:17-8.3*.

(f) If a multidisciplinary evaluation team has identified one or more physical and/or mental conditions that are associated with developmental concerns, and has concluded that early intervention services would be appropriate to meet the needs of the child and that the child is eligible to receive early intervention services, then the evaluation team shall place documentation in the child's record that includes the informed clinical opinion pursuant to *N.J.A.C. 8:17-6.1* upon which the team based its determination of eligibility.

§ 8:17-7.2 Children at risk

(a) At-risk children are not automatically eligible for services that are available pursuant to this chapter.

(b) Individual determinations of eligibility shall be made for at-risk children based upon the evaluation and assessment and eligibility requirements provided at *N.J.A.C. 8:17-6* and *7.1*.

SUBCHAPTER 8. INDIVIDUALIZED FAMILY SERVICE PLAN

§ 8:17-8.1 Family obligations associated with accessing services identified as necessary for an eligible child

(a) Once eligibility for a child has been established pursuant to *N.J.A.C. 8:17-7*, the service coordinator shall review with the family the family cost participation requirements at *N.J.A.C. 8:17-9.2* and, with family consent, and in accordance with *N.J.A.C. 8:17-9.2*, shall assist the family in collecting information needed to complete the cost participation documents, and, whenever appropriate, an application for income adjustment.

(b) Parents of an eligible child may determine whether they, their child, or other family members will accept or decline any early intervention service identified as necessary through the evaluation and assessment process established pursuant to *N.J.A.C. 8:17-6* and in accordance with this subchapter.

1. Parents may decline any or all services at any time after first accepting them without jeopardizing other early intervention services consistent with *N.J.A.C. 8:17-8.3(g)*.

(c) The IFSP team assembled pursuant to *N.J.A.C. 8:17-8.4* shall develop the IFSP, pursuant to *N.J.A.C. 8:17-8.3*, without regard to a family's ability to pay.

§ 8:17-8.2 Services before completion of evaluation and assessment

(a) The service coordinator shall arrange for the provision of early intervention services for a child that has been determined to be eligible for such services, pursuant to *N.J.A.C. 8:17-7.1*, before the completion of the evaluation and assessment, described at *N.J.A.C. 8:17-6*, if:

1. The NJEIS determines that it is immediately necessary for the child and the child's family to receive certain early intervention services prior to completion of evaluation and assessment to ensure that the child's health and/or well-being are not in jeopardy pending completion of evaluation and assessment;

2. Parental consent is obtained;

3. An interim IFSP is developed that includes:

i. The name of the service coordinator who shall be responsible for the implementation of the interim IFSP and coordination with other agencies and persons; and

ii. The early intervention services that have been determined to be needed immediately by the child and the child's family; and

4. The evaluation and assessment are completed within the 45-day period required in *N.J.A.C. 8:17-6*.

§ 8:17-8.3 IFSP development, review and evaluation

(a) For a child who has been evaluated for the first time and determined to be eligible for early intervention services, the service coordinator shall conduct a meeting with the IFSP team, as described at *N.J.A.C. 8:17-8.4(a)*, to develop the initial IFSP within 45 days from the date of referral and shall, as appropriate in accordance with *N.J.A.C. 8:17-8.2*, consider an interim IFSP.

(b) The IFSP team shall review the IFSP for a child and the child's family every six months, or more frequently if conditions warrant, or if the family requests such a review.

1. The review may be carried out in the form of a meeting or by another means that is acceptable to the parents and other participants.

2. This review shall determine:

i. The degree to which progress toward achieving the goals and outcomes is being made; and

ii. Whether modification or revision of the goals and outcomes or services is necessary.

(c) The members of the IFSP team established pursuant to *N.J.A.C. 8:17-8.4(a)* shall conduct a meeting on at least an annual basis to evaluate, and as appropriate, revise the IFSP for a child and the child's family.

(d) The IFSP team shall use the results of current evaluations and assessments conducted pursuant to *N.J.A.C. 8:17-6*, and other information available from the ongoing assessment of the child and family, in determining what early intervention services the child and child's family are eligible to receive.

1. To be considered current, an evaluation or assessment shall have been conducted within six months of the most recent IFSP review.

(e) The service coordinator shall ensure IFSP meetings are conducted:

1. In settings and at times that are convenient to families; and

2. In the primary language of the family or other mode of communication used by the family, unless it is clearly not feasible to do so, such as if communicating with them in that manner were so prohibitively costly, as to make it unreasonable for the NJEIS to communicate with the family in that fashion.

(f) The service coordinator shall ensure meeting arrangements are made with, and written notice provided to, the family and other participants early enough before the meeting date to ensure that they will be able to attend.

(g) The service coordinator shall ensure the content of the IFSP is fully explained to the parents.

1. The service coordinator shall obtain informed written consent, consistent with *N.J.A.C. 8:17-8.1(c)*, from parents prior to provision of early intervention services identified in the IFSP through the early intervention system.

2. If parents do not provide consent for a particular early intervention service, or withdraw consent, that service shall not be provided.

3. A child and his or her family shall receive only those early intervention services that the IFSP identi-

fies as needed, subject to the parent's consent to receive those services pursuant to *N.J.A.C. 8:17-4.2* and the parent's agreement to pay for those services in accordance with the family cost share and funding policies at *N.J.A.C. 8:17-9.2*.

(h) The service coordinator shall complete the IFSP development process using the IFSP form at Chapter Appendix D, incorporated herein by reference.

§ 8:17-8.4 Participants in IFSP meetings and periodic reviews

(a) The following IFSP team participants shall be included at, and participate in, the initial meeting and each annual meeting to evaluate the IFSP:

1. The parent or parents of the child;
2. Other family members, as requested by the parent, if feasible to do so;
3. An advocate or other person outside of the family, if the parent requests the participation of such persons;
4. The service coordinator who has been working with the family since the initial referral of the child for evaluation, or another service coordinator who has been designated to be responsible for implementation of the IFSP;
5. One or more practitioners directly involved in conducting the evaluations and assessments; and
6. As appropriate, practitioners who will be providing IFSP services to the child or family.

(b) If a practitioner directly involved in conducting the evaluations and assessments is unable to attend a meeting, the service coordinator shall arrange for the practitioner's involvement through other means, including:

1. Participating in a telephone conference call;
2. Having a knowledgeable authorized representative attend the meeting on behalf of that practitioner; or
3. Making pertinent records available at the meeting.

(c) Each periodic review shall provide for the participation of persons in (a)1 through 4 above.

1. If conditions warrant, provision shall be made for participation of other representatives identified in (a) above.

§ 8:17-8.5 Contents of IFSP

(a) Consistent with the terms and conditions of the health services grant funded by the Department and implemented by the SPOEs, service coordinators shall use forms developed by the Department to document IFSP services that a child and his or her family are eligible to receive.

(b) The IFSP shall contain a statement of the child's present levels of physical development (including vision, hearing, and health status), cognitive development, communication development, social and/or emotional development, and adaptive development.

(c) The statement described in (b) above shall be based on professionally objective criteria.

(d) With the agreement of the family, the IFSP shall include a statement of the family's resources, priorities and concerns related to enhancing the development of the child.

(e) The IFSP shall contain a statement of the measurable results or outcomes expected to be achieved for the child and family, including pre-literacy and language skills, as developmentally appropriate for the child, and the criteria, procedures, and timelines used to determine:

2. Whether modifications or revisions of the results, outcomes, or services are necessary.

(f) The IFSP shall contain a statement of the specific early intervention services from among those listed in (g) below, the selection of which are based on peer-reviewed research, to the extent available, necessary to meet the unique needs of the child and the family to achieve the results or outcomes identified in the statement described in (e) above, including:

1. The frequency, intensity, location, and method of delivering the services;
2. The payment arrangements, if any, in accordance with family cost participation requirements provided in *N.J.A.C. 8:17-9.2*; and

(g) Early intervention services for which a child or a child's family may be eligible include, but are not limited to:

1. Assistive technology devices;

2. Assistive technology services;

17. Vision services.

(h) As used in (f)1 above:

1. "Frequency" and "intensity" mean the number of days or sessions that a service is to be provided, the length of time the service is to be provided during each session, and whether the service is to be provided on an individual or group basis;

2. "Method" means how a service is to be provided; and

3. "Location" means the actual place or places where a service is to be provided, such as at home, childcare, a center or a hospital.

(i) To the extent appropriate, the IFSP shall address:

1. Medical, and other services that the child needs, but that are not required early intervention services as described at (g) above;

2. Identification of the funding sources to be used in paying for those services; and

3. The steps that will be taken to secure those services through public and private sources.

(j) The IFSP need not include routine medical services, such as immunizations and well-baby care.

(m) In meeting the requirements in (l) above, the SPOE shall either:

1. Assign the same service coordinator who was appointed at the time that the child was initially referred for evaluation, as the service coordinator responsible for implementing an IFSP for the child and the child's family; or

2. Appoint a new service coordinator.

(n) The IFSP shall include the steps to be taken to support the transition of the child, upon reaching age three, to:

With parental consent, the transmission of information about the child to the local education agency or other potential post-transition provider agency (if other than a public school), to ensure continuity of services, including evaluation and assessment information required in N.J.A.C. 8:17-6, and copies of IFSPs that have been developed and implemented.

§ 8:17-8.6 Natural environments

The provision of early intervention services for any eligible child shall be provided in natural environments and shall occur in a setting other than a natural environment that is most appropriate, as determined by the parent and IFSP team, only when early intervention

cannot be achieved satisfactorily for the child in a natural environment.

§ 8:17-8.7 Discipline-specific therapy

Discipline-specific therapies, including speech and language pathology services and occupational and physical therapy, shall be provided consistent with the individual needs of the eligible child and, to the extent the needs of the family relate to the needs of the child, consistent with the family's needs.

§ 8:17-8.9 Recommended guidelines for determination of services for children with speech and language disorders

The Department's recommended guidelines for addressing the service needs of a child with a diagnosed speech and language disorder are contained in a technical assistance manual entitled, "Service Guidelines for Speech Therapy in Early Intervention," which publication is available upon request from the NJEIS.

§ 8:17-8.10 Responsibility and accountability

Each practitioner who has a direct role in the provision of early intervention services shall make a good faith effort to assist each eligible child and family to achieve the outcomes in the IFSP, pursuant to Part C.

SUBCHAPTER 9. FINANCIAL MATTERS

§ 8:17-9.1 Department responsibility for identifying and coordinating availability of resources

Pursuant to New Jersey P.L. 1993, c. 309, the Department is the lead agency responsible for establishing State policies related to the payment process for services to eligible children and their families under Part C, including the identification and coordination of all available resources for early intervention services

within the State, including those from Federal, State, local, and private sources.

§ 8:17-9.2 Specific funding policies

(a) The Department shall carry out the following functions at public expense and without fees being charged to parents:

1. Implementation of the Child Find requirements, in accordance with N.J.A.C. 8:17-2;

2. Evaluation and assessment in accordance with N.J.A.C. 8:17-6;

3. Service coordination in accordance with N.J.A.C. 8:17-3; and

4. Administrative and coordination activities related to:

i. The development, review and evaluation of an IFSP in accordance with N.J.A.C. 8:17-8; and

ii. The implementation of procedural safeguards in accordance with N.J.A.C. 8:17-13 through 16 and all other components of the early intervention system in accordance with this chapter.

(b) Consistent with *N.J.A.C. 8:17-8.5(f)*, an eligible child's IFSP shall be developed based upon the child's developmental needs.

1. Developmental services shall be subject to a family cost share for those families with incomes at or above 350 percent of the Federal poverty level.

2. Consistent with (b)4 below, fees shall be charged to families with incomes at or above 350 percent of the Federal poverty level, for services listed at *N.J.A.C. 8:17-8.5(g)* and identified as needed on the child's IFSP.

3. The NJEIS shall determine a family's ability to pay consistent with the State family cost participation regulations set forth at (b)4 below.

i. Consistent with the terms and conditions of a health services grant funded by the Department and implemented by each SPOE, the service coordinator shall inform the family about the NJEIS family cost participation policies and procedures during the intake process.

ii. Once eligibility for the child has been established, the service coordinator shall review the family cost participation policy and procedures with the family, and with family consent, collect information needed to complete the forms at Appendices A and B for submission to the NJEIS or its designee, and, as

appropriate, assist the family to submit Appendix C to the NJEIS for processing.

iii. Written documentation, such as paid invoices or receipts for the goods or services claimed, shall accompany an application for consideration of extraordinary expenses submitted using the form at Appendix C.

iv. Families shall be informed of their rights to an administrative review by the Department if asking for special consideration of their financial status, mediation, an impartial due process hearing, or an administrative complaint to challenge their family cost share.

4. Families with an annual gross income at or above 350 percent of the Federal poverty level shall share in the cost of early intervention services provided, the amount of which shall be determined in accordance with the Family Cost Share formulas at Chapter Appendix E and the Family Cost Share Tables at Chapter Appendix E1, both of which are incorporated herein by reference, and consistent with the following:

i. The NJEIS family cost share is a progressive fee charged for each hour of early intervention services provided to the child and/or the child's family, based upon household size and gross income, as compared to the Federal poverty guidelines.

ii. The family's actual monthly cost will be either the family cost share payment determined in accordance with this subsection or the actual cost of services, whichever is less.

iii. The family cost share payment established for the family will be the same, regardless of the specific provider agencies from which services are received.

iv. In determining a household's gross income for purposes of calculating a family's cost share, the EIS shall consider written documentation that a family submits to show a change in or loss of household income, and shall deduct from a household's EIS-determined gross income the amount of the lost income if the EIS determines the documentation to be credible.

v. In determining a household's gross income for purposes of calculating a family's cost share, the EIS shall consider written documentation of expenses the household incurs associated with child care for the eligible child while the child's parents are at work and unavailable to care for the child, and shall deduct from the household's EIS-determined gross income the expenses the household incurs for child care for the eligible child to the extent by which they exceed usual and customary child care expenses for a child without special needs in a similar manner and setting, such as in a community-based child care facility or by a babysitter.

vi. For purposes of determining a family's cost share, and at a family's request, the EIS shall review information submitted using the form at Appendix C and shall deduct from a household's EIS-determined income extraordinary expenses to the extent by which they exceed five percent of the household's EIS-determined income.

5. The NJEIS shall adjust Appendices E and E1 upon the annual issuance by the US Department of Health and Human Services of revisions to the Federal Poverty Guidelines, and thereupon shall publish a notice in the New Jersey Register, usually prior to July 1 of each year, to announce the update to the Federal Poverty Guidelines at Appendix E and to update the Family Cost Share copays and monthly maximums in accordance with the updated Federal Poverty Guidelines at Appendix E1 and the effective date of the revisions, which usually will be July 1 of each year.

(c) The Department shall not charge fees for services that a child is otherwise required to receive at public expense, pursuant to (a) above.

(d) Early intervention services will not be provided in those instances in which a parent declines to pay the family cost share.

(e) A family's failure to timely satisfy family cost share obligations will result in a disruption of services and will disentitle the family to compensatory services.

§ 8:17-9.3 Timely provision of services

(a) Provider agencies shall not delay the provision of early intervention services because of disputes between agencies regarding financial or other programmatic responsibilities.

(b) In the event of dispute among agencies, provider agencies, and/or the Department, services are to be provided to eligible children and their families in a timely manner as follows:

1. The service coordinator for the family shall contact the Procedural Safeguards Office, which shall determine the party that is to bear the financial responsibility for functions or services to be provided during the pendency of the dispute;

2. Upon resolution of an interagency dispute, in accordance with *N.J.A.C. 8:17-9.4*, the Department shall notify the provider agency determined to have financial responsibility for the early intervention functions or services provided during the pendency of the dispute;

3. The written notification shall include:

i. The name of the financially responsible agency;

- ii. The name of the eligible child for whom functions or services are to be provided;
- iii. The type of each early intervention function or service to be provided;
- iv. The date(s) on which each function or service is to be provided;
- v. The frequency and intensity of the early intervention service to be provided, the cost of the service, and the total amount of reimbursement required for each service; and
- vi. The name of the provider agency that is to be reimbursed for each function or service.

(c) Upon receipt of written notification, in accordance with (b) above, the agency determined to have financial responsibility shall have 60 days to provide reimbursement to the agency that has assumed financial responsibility for functions or services provided during the pendency of the dispute.

§ 8:17-9.4 Resolution of interagency disputes

(a) The Department shall resolve disputes related to early intervention services pursuant to the procedures described in (b) below and shall permit each State agency to resolve its own internal disputes in accordance with the terms of its interagency agreements.

(b) The following procedures shall be enforced by the Procedural Safeguards Office to ensure that services are provided in a timely manner pending resolution:

1. Discussion between the concerned parties at the local level (such as between State agency field staff);
2. If the dispute is not resolved at the local level, transmission of a letter outlining the dispute and parties involved in the dispute to the Department representatives (Assistant Commissioner or Director, as appropriate);
3. If the dispute is not resolved within 20 working days by the Department representative, following the issuance of the letter described in (b)2 above, the representative shall forward the matter to the Commissioner at the Department's address provided at *N.J.A.C. 8:17-1.3*;
4. Pursuant to the Interagency Agreement, the Commissioner has been assigned responsibility by the Governor to issue a final decision, in writing, within 30 days of his or her receipt of the dispute referred to in (b)3 above;

5. During the pendency of the dispute, the Department shall arrange for payment of services in accordance with *N.J.A.C. 8:17-9.5* to assure that services continue to be provided without interruption to the child and family during the period that it takes for the dispute to be resolved; and/or

6. If, in resolving the dispute, it is determined that the assignment of financial responsibility was inappropriately made, the party reviewing the dispute shall reassign financial responsibility to the appropriate provider agency and arrangements for reimbursement of any expenditures incurred by that provider agency originally assigned responsibility shall be made by the party that is determined to be financially responsible.

§ 8:17-9.5 Payer of last resort

(a) NJEIS funding shall not be used to satisfy a financial commitment for services that would have been paid for from another public or private source, including any medical program administered by the Secretary of Defense, but for the enactment of Part C.

(b) Whenever considered necessary by the Department to prevent delay in the receipt of appropriate early intervention services for a child or the child's family in a timely fashion, NJEIS funding may be used to pay for the services pending the reimbursement from the agency that has ultimate responsibility for payment.

(c) Funding described in (a) above shall not be applied to medical services or well-baby health care.

(d) NJEIS funding shall be used only for early intervention services that an eligible child needs but to which the child is not entitled from any other Federal, State, local, or private source.

1. The family consistently fails to attend scheduled early intervention sessions, without providing prior notice to the provider agency or

2. The practitioner reasonably believes that his or her safety would be in jeopardy if he or she were to provide services to the child and/or family in the locations designated by the family.

(b) The NJEIS, in consultation with the practitioner, shall suspend early intervention services for a child and the child's family by sending the family a written notice of suspension and termination indicating the date of the suspension, the reason(s) for suspension, whether termination will occur as a result of a family's failure to follow instructions under the suspension, and the means by which the family may contest the suspension, as described in (c) below.

1. A termination of services pursuant to (a) above shall not affect a family's ability to receive those early intervention services that are provided at public expense pursuant to *N.J.A.C. 8:17-9.2(a)*.

(b) Upon written notice, early intervention services provided to a child or his or her family shall be terminated immediately under the following circumstances:

3. The family has engaged in conduct toward practitioners that is illegal or abusive; or

4. The IFSP team determines that the child is no longer eligible for early intervention services and that termination is warranted.

(c) The Department, after consultation with the family, practitioners, the service coordinator, and other persons with relevant knowledge, shall determine whether termination is warranted pursuant to (b) above.

1. If the Department determines that termination is warranted, the Department shall direct the service coordinator to process the cancellation of authorizations for early intervention services for a child and the child's family by:

i. Directing provider agencies to cease dispatching practitioners to deliver early intervention services to the child and the child's family; and

ii. Transmitting a written notice of termination to the family, with a copy to the Procedural Safeguards Office, indicating the date of termination; the reason(s) for termination; and means by which the family may contest the termination, as described in (d) below.
